

## Jabra Link 950

# Connect a USB headset to a desk phone, softphone, and mobile phone<sup>1</sup>

The Jabra Link 950 is engineered to enhance productivity during the transition from desk phone to softphone.

### Boost productivity

The Jabra Link 950 helps boost productivity by enabling you to use a USB headset, either with just your desk phone or with your desk phone and softphone. Choose from our wide range of corded and wireless USB headsets<sup>4</sup>, and look for Bluetooth® functionality if you also want the headset to connect to a mobile phone.

The Jabra Link 950 enables you to handle all your calls on a high-performing USB headset with superior sound and features such as Active Noise Cancellation (ANC), busylight and microphone positioning guidance - boosting your productivity and helping combat noise and interruptions in the open office.

### Ready for the future

Combining the Jabra Link 950 with a Jabra USB headset helps future proof your solution. The USB headset can be customized to your preferences, while firmware upgrades ensure performance is optimized over time. The ability to connect to your desk phone, softphone and mobile phone<sup>1</sup> gives valuable flexibility for organizations transitioning to softphones or operating in mixed phone environments.

### Easy to install, use and manage

The Jabra Link 950 is simple to set up and has a small, unobtrusive footprint on the desktop. Easy call management enables you to seamlessly switch between phone devices at the touch of a button. Central management of USB headsets is easy using Jabra Xpress.

### USB-A and USB-C versions available

The Jabra Link 950 comes in USB-A and USB-C versions so you can choose the USB headset that best serves your needs. To connect to your computer, use the USB-A or USB-C cables that are both supplied. To connect to your desk phone use the cable included.

### Compatible with leading desk phones and softphones<sup>2</sup>

Get full call control via the USB headset. For calls received on your desk phone, use an Electronic Hook Switch (EHS) adapter<sup>3</sup> to get full call control. To get full call control for calls received on your softphone<sup>2</sup>, simply use the included USB cable.

At a glance:

### Jabra Link 950

- Use one USB headset with your desk phone or both softphone and desk phone
- Choose a headset with productivity-boosting features such as ANC, busylight and microphone positioning guidance
- Manage settings and product updates via Jabra Direct and manage centrally via Jabra Xpress
- Easy to set up, use and manage
- Compatible with leading desk phones and softphones
- Choose from a wide range of Jabra USB wireless and corded headsets

Works with<sup>1</sup>

<sup>1</sup> Mobile phone connectivity is limited to headsets with Bluetooth functionality. Mobile phone audio, answer/end functionality etc. is occurring directly between the Bluetooth headset and the mobile phone. No audio or functionality is routed via the Jabra Link 950. <sup>2</sup> Please refer to [Jabra.com/compatibilityguide/](https://www.jabra.com/compatibilityguide/) for full list.

<sup>3</sup> Available as an accessory. <sup>4</sup> Use the Bluetooth adapter with USB to connect a wireless headset to Jabra Link 950.

## How to connect and use

First, connect your desk phone and/or computer to the back of the Jabra Link 950 using the cables supplied in the box. Plug your headset USB cable or Bluetooth adapter into the front of the Link 950. For information on your specific phone, refer to [jabra.com/compatibilityguide](http://jabra.com/compatibilityguide)

Calls are handled directly from your headset, since the Link 950 automatically connects the headset to the phone that receives a call. You can choose your preferred computer softphone client as default in Jabra Direct. If your softphone is not supported, the calls need to be handled directly in the softphone client.

Please note that an Electronic Hook Switch (EHS) adapter can be required to enable call control of desk phone calls from the headset. Alternatively, the call must be answered by pressing the answer button on the relevant desk phone. For more information, please refer to the user manual on [jabra.com/support](http://jabra.com/support)

\* RJ45 and 3.5mm cables and Jabra EHS cable not supplied.
